

SHIELDS WITH EAGLES

OGS Technologies can trace its history to the year 1812 when the "War of 1812" interrupted the supply of military uniform buttons from England to the United States. Aaron Benedict founded "The Waterbury Button Company" and began melting down pewter pots and pans to make buttons for the military.

For almost 200 years OGS/Waterbury Button Company has been supplying the U.S. military and law enforcement industries with metal buttons of unparalleled quality.

In our commitment to serving the law enforcement industry in 2003 OGS Technologies purchased the assets of "Northeast Emblem and Badge". As the main supplier of uniform buttons to the military, police, and fire industries, along with our vast experience in metal stamping and plating, it was a great compliment to the organization. The "Badge Division" of OGS is a supplier of badges, insignias, and accessories used by law enforcement and fire personnel.
