

Since 1932

STRONG

Badge Cases, Wallets & Gear Bags

Introduction

We at Strong Leather Company have been manufacturing our Strong line of badge cases and wallets since 1932. Using only the finest of materials and manufacturing our products right here in the United States. We are the largest provider of badge cases, wallets and ID products to the law enforcement market and have manufactured the cases used by the Federal Government for over 25 years, with our GSA contract.

We continue to provide new and improved products based on suggestions made by our customers. Through some of these suggestions we now carry a high quality imported line of badge cases and wallets. The Centurion line is priced to meet the requirements of all our customers.

New this year, we are introducing a line of credit card size badge cases and ID holders. The badge case has a section for your license and a couple of credit cards and a version with a money clip. Along with an ID holder to hang around the neck or Velcro® around your belt.

We are also expanding our gear bag line with two larger bags and a seat organizer.

Thank you for your continued support.

Features

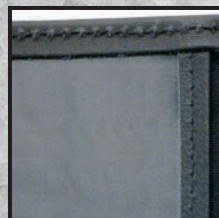

Duty Leather

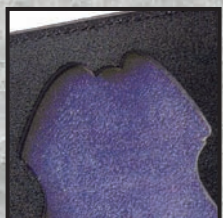

Dress Leather

Framed Window

Bound Window

Recessed Badge Section

Gold imprinted

Silver Imprinted

Debossed

Metal Seals or Emblems

Round Corner

Slide Thru Window

Smart Card

Strong's badge cases, ID/credential cases, and wallets have the useful features you want. All recessed badge cases and wallets are built to protect your badge and have a removable insert for easy badge mounting. The badge insert has two holes in it to add a chain. A flap protects the badge's luster and finish. Your ID's (1 or 2) are protected by a sewn in vinyl window. All are constructed of genuine leather with durable nylon thread.

Duty and Dress Cases

Strong manufactures both Duty and Dress cases to meet your needs. Duty cases are made from top grain heavy-duty police grade leather with English cut edges (butt edge) and framed windows.

Dress cases are made from a mellow fine grain leather with French turned edges (leather is turned over the outside edge) and a moire lining for a more formal appearance. The windows are either framed like a picture or sewn-in bound windows that show more of your ID.

Custom Badge Cutouts

For customizing your case or wallet, nobody comes close to Strong. Over 1600 badge shape cutouts are currently available - far more than any other company. Strong can precisely die cut for your particular badge.

Custom Imprinting

Strong will further customize your case with imprinting or debossing with a minimum order of twelve cases. Also, custom seal imprinting will be quoted upon request.

Custom Emblems or Seals

We can make custom color metal seals. The seal can be recessed in the case. Call for custom quote.

Round Corner

We have rounded the corners on some of our imported products. It makes it easier to put the case/wallet into your pocket, as badge cases/wallets are usually wider than your personal wallet. It will also prevent the corners from curling when in your pocket and reduce the chance of wearing a hole in your pants.

Slide Thru Window (STW)

If your double ID's are attached to a commission book we have designed an easy method to put them in a case. Just slide them through the slit in the left window.

Smart Card Window

Available on cases with double ID's. Keeps your Access/Smart Card easily available to show.

Centurion Badge Cases

Strong designed the Centurion line of imported badge cases, wallets, badge holders and other products to meet the requirements of you our customer. All the products are made of genuine leather and the quality you expect. Most badge cases and wallets have turned edges for a dressier look. They also feature leather framed windows for your ID and black suede dividers to protect your badge finish. Most products have rounded corners so you can easily put it in your pocket and prevent the corners from curling. Some products are available in black, black weave or brown. See individual products for selection.

We continue to expand the line based upon the suggestions from you our customers.

Badge cases and wallets can be custom cut (recessed) for your badge or available in the standard stock cutouts and can be imprinted or debossed with your department name or logo.

Single & Double ID Badge Cases

Strong Leather is the leading supplier of badge cases and wallets in the United States, and provides products to many law enforcement agencies (through out) the world. Strong has been manufacturing quality USA made badge cases and wallets since 1932. Our products are made from the finest materials and made with good old New England quality. Not only can we custom cut the cases to fit your badge, we offer imprinting or debossing on the cases to show off your department's name or seal. Strong Leather is the largest supplier of badge cases for the Federal Government, maintaining our GSA contract for over 25 years. We at Strong continue to custom design many products to meet our customers specific requirements. Although our competitors have copied our products, they have never been able to match our quality.

Belt or Neck Badge Holders

Model 811 with chain

Model 811 series.

Double Thick
Badge Section for
Model 807 series.

Recessed Badge Holders for Neck or Belt

All models are custom cut to fit your badge. The badge is easily attached by separating the Velcro® front and back. A unique pocket holds the chain when not in use and the chain can be easily deployed to wear around your neck for high visibility.

We have over 30 different shapes so your badge holder will have the least amount of leather around your badge. If you do not know the shape just order the model number with an "X" in the fourth digit. (Example: 811X0) If you want a chain for model 807 and 811 or add a "7" to the fifth digit. (Example: 811X7)

Model 807 Series

If your badge is dapped (curved) or your badge has a pin fastener you may want to buy our model 807, which has a double thick badge section, as your badge will fit deeper in the recessed section. Specify if you want a chain.

Model 811 Series

Model 811 has a single layer of leather in the recessed area. Best used for flat badges. The model 811 has a metal clip to wear it on your belt. Specify if you want a chain.

Model 8110A

Badge Spacers-Velcro

Does your badge move around in a recessed or non-recessed clip on badge holder? These spacers take up the extra space and locks your badge in place.

Ordering Information

When selecting and ordering your case or wallet, be sure to keep in mind:

- the badge manufacturer, model number and width of badge;
- the number and size of your ID's including lamination;
- the printed area of your ID;
- the imprinting desired.

If a double ID or badge case doesn't have a divider one can be added by adding a "D" to the end of the model number. The divider prevents the window(s) from scratching and prolongs the use of your case.

Custom Cut Badge Shapes

We have a new website to help you determine the proper cutout for your badge. Go to www.StrongBadgeCases.com. If you do not know the manufacturer and/or model number just fill in the following.

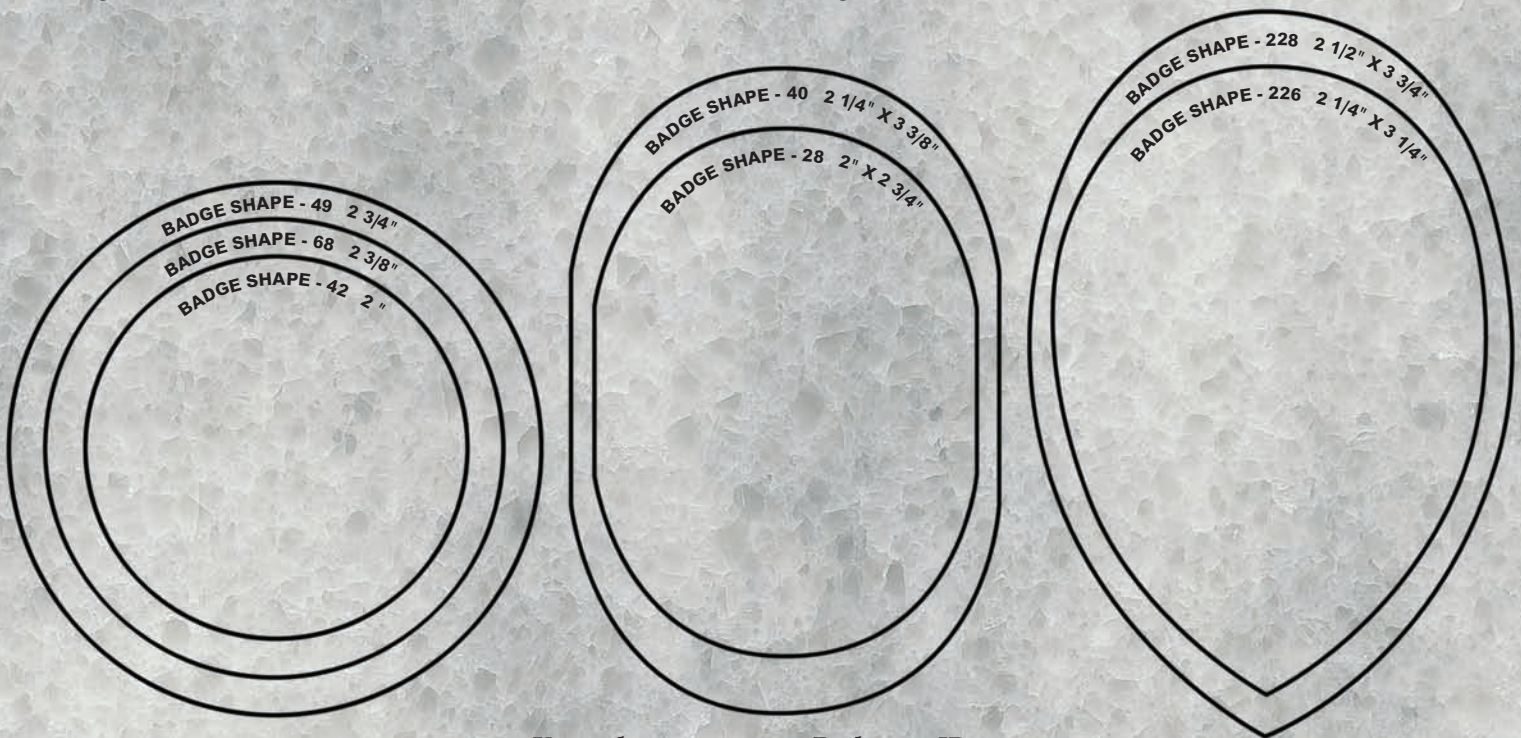

- Pick the shape of your badge (Example: 6 point star with balls.)
- Select the width and/or the height. Measure to the widest or tallest point. (Example: 2")

We will show you all the badges that meet your requirements and all that are 1/8" smaller/wider or shorter/taller than your selection. You will need to print the selection so you can select the proper cutout.

If you want us to determine your cutout just fax us a tracing or photocopy. When you fax it to us, please indicate the width and height of the badge, as the copy we receive may be smaller.

Universal Badge Shapes

The cutouts below can be used with any recessed badge case or wallet depending upon the maximum width that is accepted by the product. The size of the universal cutout is indicated within the badge shape number. Just place your badge on the outline and determine which cutout fits your badge best, other universal cutouts are available.

Use ruler to measure Badge or ID
